SEAMLESS MEDICAL FLOORING

CORQUES[®]
LIQUID LINO

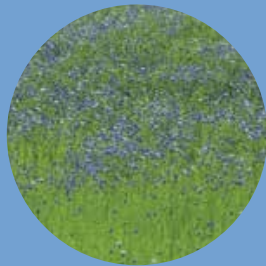

Creating HEALINGspaces

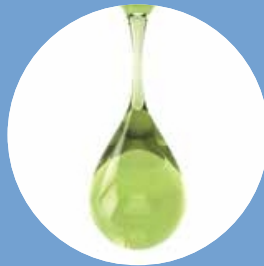

Corques Liquid Lino starts a revolution in resilient flooring. One and a half centuries after Frederick Walton invented linoleum, the old concept of a factory manufactured linoleum in rolls and tiles was changed to a liquid poured version of the linoleum which is applied seamlessly on site. The superior properties of Corques Liquid Lino matches all the original linoleum characteristics, and adds several more.

SUSTAINABLE DURABILITY

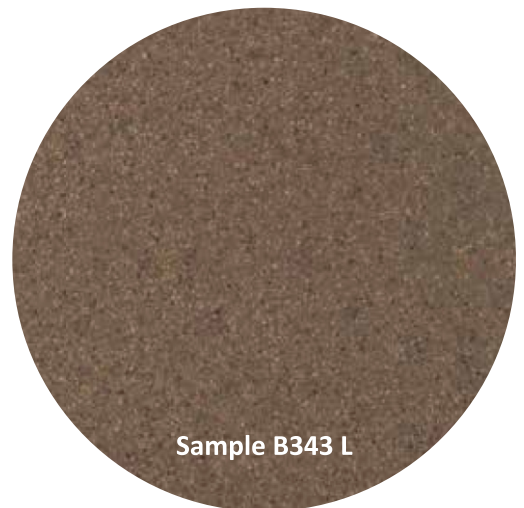

Corques Liquid Lino is a blend of pure sustainable materials which are given to us by mother nature. The vegetable oil, cork, wood-flour, limestone and natural color pigments mixed together in our factory. On site Corques Liquid Lino is poured on the subfloor, where it sets overnight at ambient temperatures to create a seamless durable and natural looking resilient floor with excellent properties. Corques Liquid Lino fulfils the German AgBB requirements for safe Indoor Air qualification for safe indoor usage and is LEED and BREEAM certified. (VOC and PVC free, no plasticizers, no formaldehyde, no chlorine, no heavy metals)

COLOR FREEDOM

The choice of color and shape personalizes your environment. Corques Liquid Lino creates an unseen design and color freedom. Together with top designers and architects we created a beautiful modern standard color line of 54 colors. We can also provide custom designed colors, even for small quantities. Please contact us for more information and different color samples.

INSTALLATION

Installs at 1000 square feet/hour
Self-adhering, no glues or adhesives are required
Cost of installed CLL is comparable to other sheet flooring.
Please inquire.

Sample B343 L

ultimate SOLUTION

for hallways, corridors, patient rooms, and operating rooms

With the sky-rocketing labor costs and harsh chemicals needed for existing floors, CLL provides a lifetime flooring solution that many industries have been looking for when it comes to a true viable flooring solution that is also economical. The benefits of Corques Liquid Lino are many:
